LED Display – LCD Poster Series

LBAR Series

Key Features

- **Ultra-wide aspect ratios (up to 3840×1080)**
  Designed for narrow spaces such as shelves, aisles, and window displays.
- **Multiple size options (23”–86”)**
  Covers small retail strips to large-format digital signage.
- **High brightness (300–1000 nits)**
  Suitable for indoor environments with strong ambient lighting.
- **Slim, durable design**
  Toughened glass + optical bonding improves visibility and durability.
- **Flexible installation**
  - Wall-mounted
  - Shelf / fridge-mounted
  - Floor-standing options available
- **Plug-and-play media support**
  HDMI input standard, optional Android / Windows OS for smart content playback.
- **Daisy chain capability (selected models)**
  Enables synchronized multi-screen displays.
- **Non-touch standard (stable commercial use)**
  Focused on reliability and long operation hours.

Key Applications

- **Retail shelving & supermarkets**
  Price strips, promotions, and dynamic advertising on shelves.
- **Food & beverage / refrigeration displays**
  Fridge door displays, menu strips, and product highlighting.
- **Transportation hubs**
  Timetables, directional signage in narrow spaces.
- **Digital signage networks**
  Multi-screen video walls or continuous banner displays.
- **Shopping centres & malls**
  Window signage and corridor advertising.
- **Corporate & commercial environments**
  Information boards, branding strips, and internal communications.
- **Creative installations**
  Custom layouts (round, square, triangle) for architectural or artistic displays.
