LED Display – LCD Digital Menu Series

LMNU Series

Key Features

- **Commercial-grade desktop display**
  Designed for counters, POS environments, and customer interaction.
- **Touch & non-touch options (PCAP)**
  - Non-touch: content display
  - PCAP touch: ordering / interaction
- **Wide format option (34” ultrawide)**
  Ideal for menu layouts, multi-product display, or split-screen content.
- **Full HD to ultra-wide resolution**
  - 1920×1080 (standard)
  - 3440×1440 (premium wide display)
- **Consistent brightness (500 nits)**
  Optimised for indoor visibility (retail / hospitality lighting).
- **Plug-and-play HDMI input**
  Easy integration with media players, POS systems, or signage software.
- **Clean white enclosure design**
  Fits modern retail, café, and hospitality environments.

Key Applications

- **Quick Service Restaurants (QSR)**
  Counter-top menu boards, ordering screens.
- **Cafés & bubble tea shops**
  Dynamic menus, promotions, combo displays.
- **Retail POS counters**
  Product highlights, upsell content.
- **Self-ordering kiosks (touch models)**
  Customer interaction and ordering interface.
- **Reception desks / service counters**
  Information display and customer guidance.
- **Food courts & takeaway shops**
  Compact digital menu replacement for static signage.
