

Features

- · Global certificates
- 450W peak power(3 sec.)
- · Universal AC input / Full range
- 3 pole AC inlet IEC320-C14, Class I power unit
- · Built-in active PFC function
- No load power consumption<0.5W
- Energy efficiency Level VI
- Comply with international energy-saving standards
- Protections: Short circuit / Overload / Over voltage / Over temperature
- Fanless design with -30~+70°C working temperature
- Fully enclosed plastic case
- · LED indicator for power on
- 3 years warranty

Applications

- · Consumer electronic devices
- Telecommunication devices
- · Office facilities
- Industrial equipments
- 3D printer
- Game console
- Vision mixer
- Power sourcing equipment of PoE

Description

GST360A is a highly reliable, 360W desktop style single-output green adaptor series. This product is a class I power unit (with FG), equipped with a standard IEC320-C14 AC inlet and adopting the input range from 85 VAC to 264VAC. The entire series supplies different models with output voltages ranging between 12VDC and 55VDC that can satisfy the demands for various types of consumer electronic devices.

With the efficiency up to 95.0% and the extremely low no-load power consumption below 0.5W, GST360A is compliant with USA EISA 2007/DoE, Canada NRCan. The supreme feature allows the adaptor to save the energy when it is either under the operating mode or the standby mode. The series utilizes the 94V-0 flame retardant plastic case. GST360A is certified for the international safety regulations.
